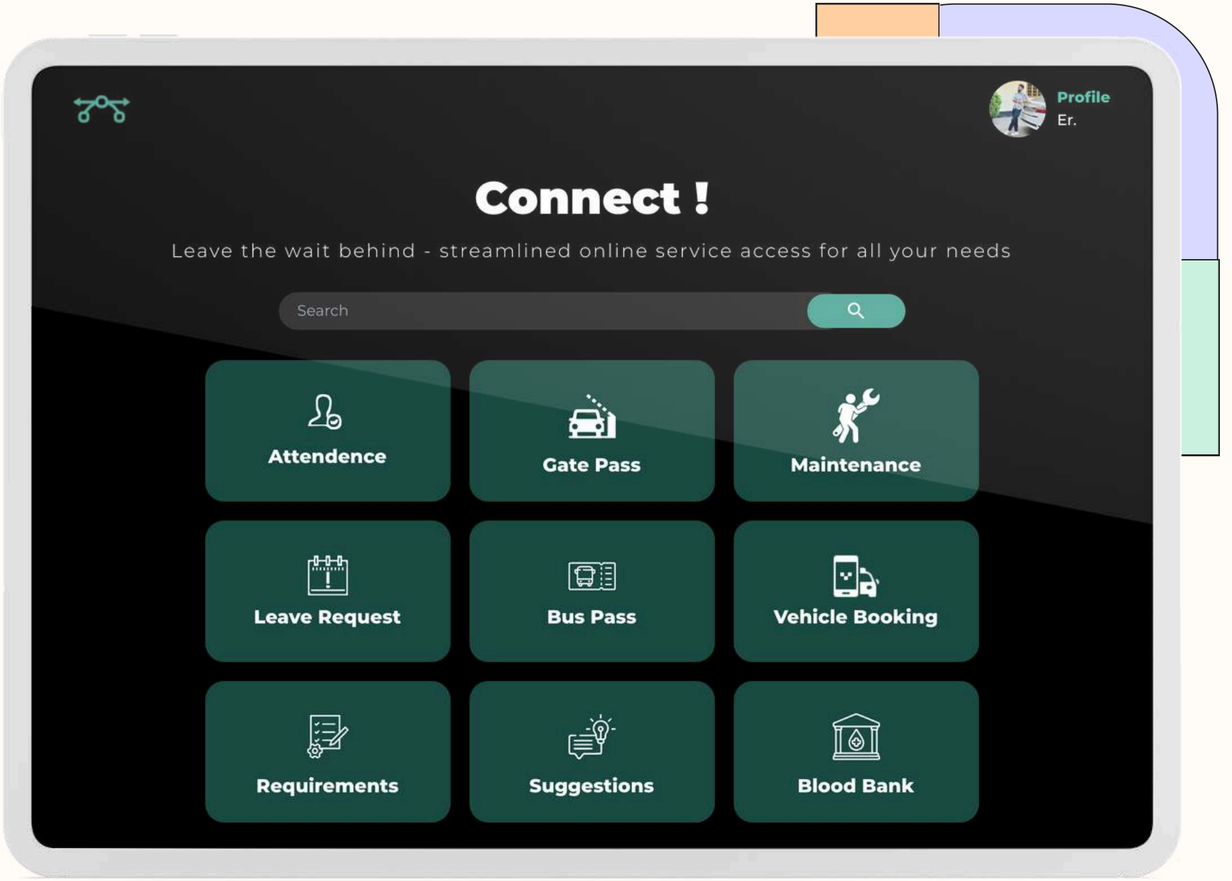
we are connecting the business management activities
in a more transparent and result-oriented way

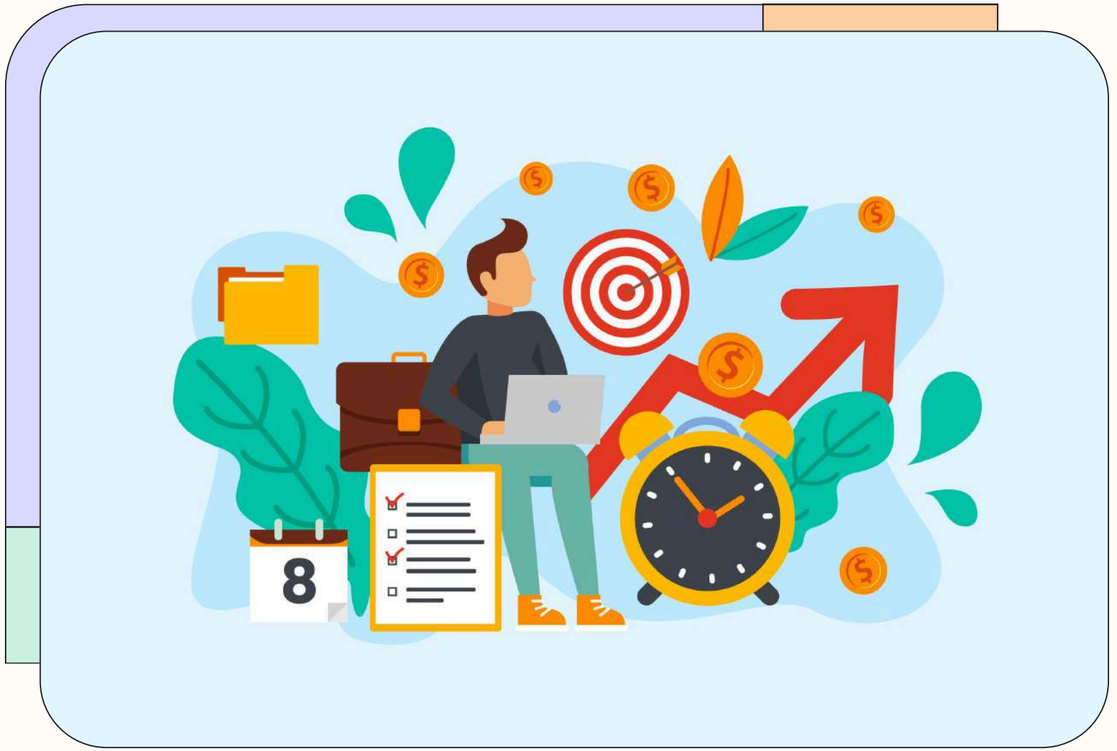
Innovative & Collaborative

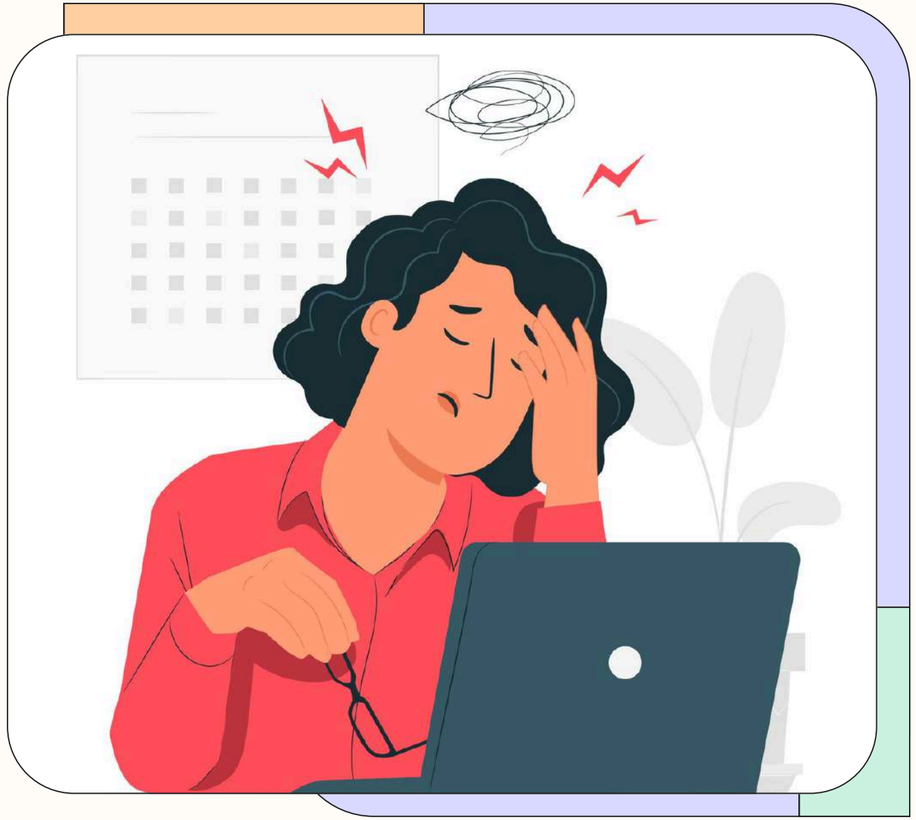


• Summary
Products that help your company grow

We are Connect App

Connect simplifies the way business management activities are handled by improving transparency and focusing on achieving better results.





Struggling with Maintenance Management?

Maintenance Manager

Simply Put, We Are Available to Assist You

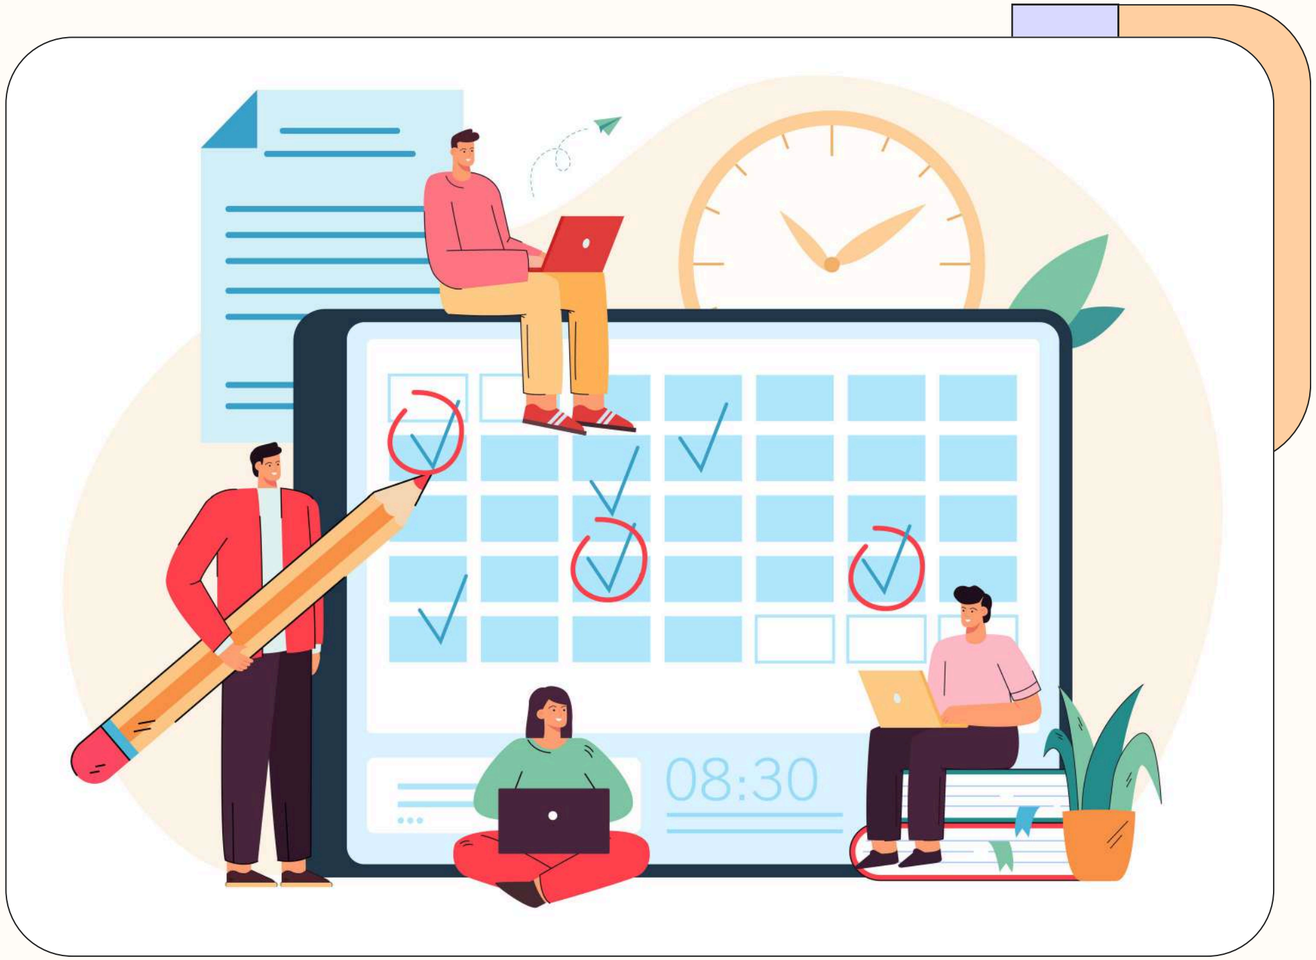
When a maintenance request is registered, the manager can assign tasks to workers, who then update the status of their work. After reviewing, the manager can mark the task as completed or pending. Upon completion, a WhatsApp message is sent to request a review, along with a timestamp of the entire process.

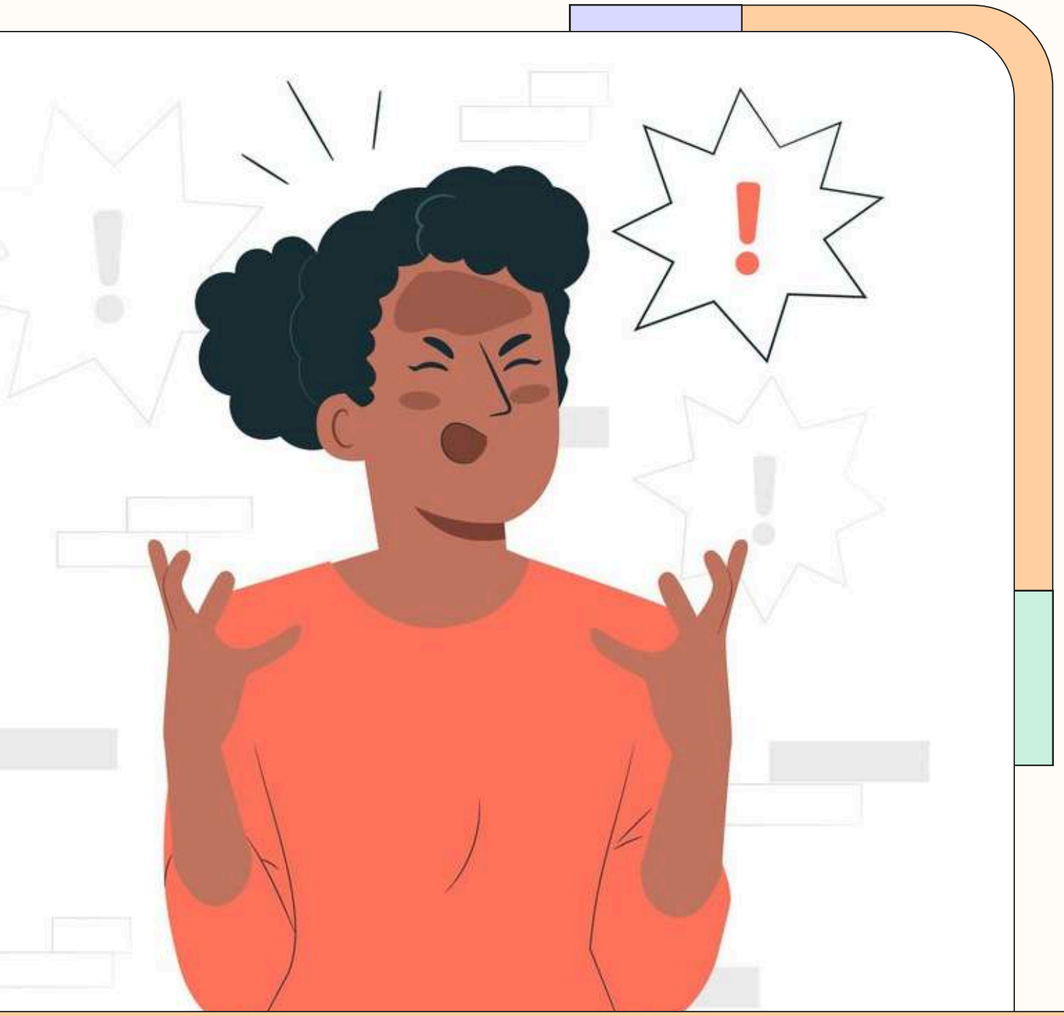
Maintenace Tracker

Efficiency of team

Connect Task Manager

Our Task Manager allows you to track all your tasks in a single window, featuring advanced filters and a powerful search function.



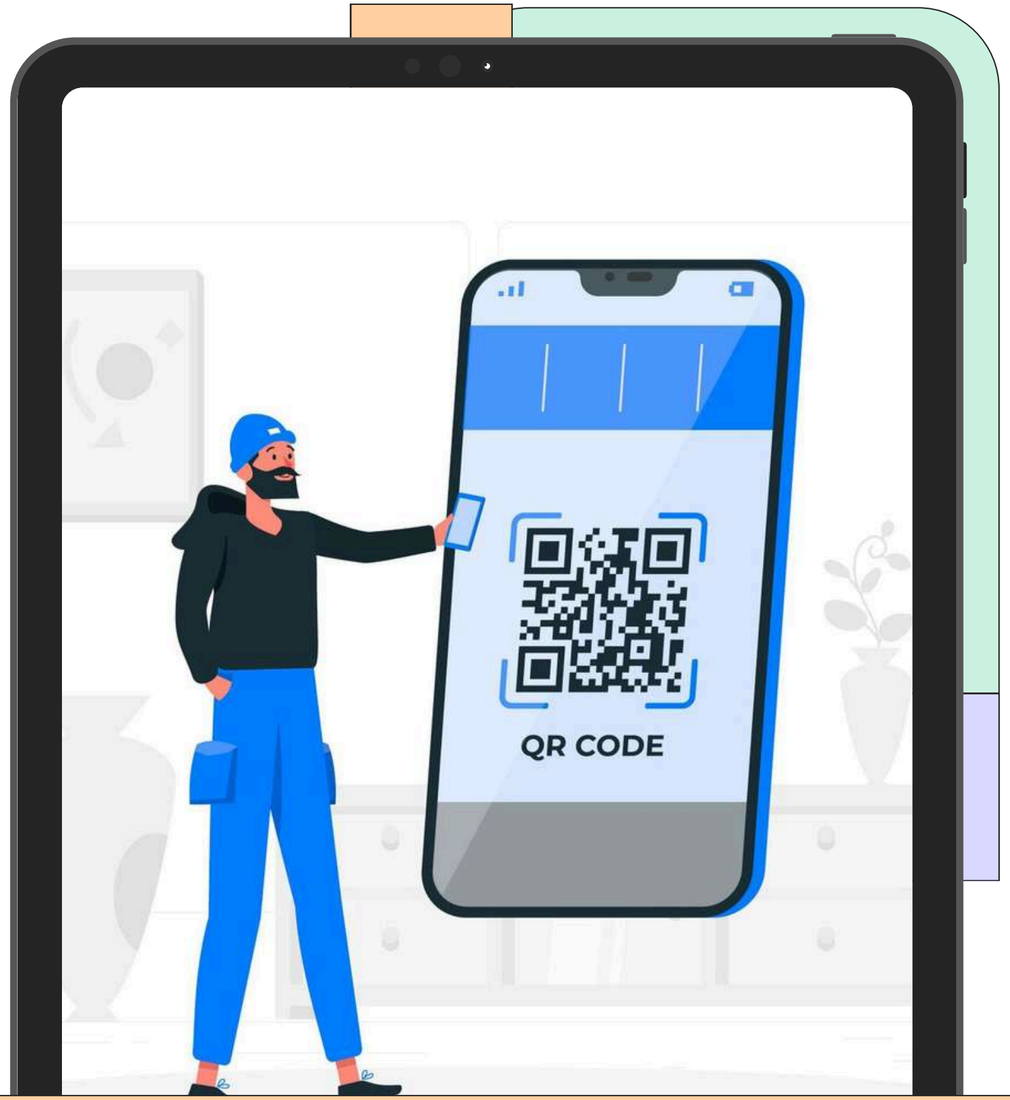


Can’t Track Staff or Students Movement ?

A bright solutions is with us

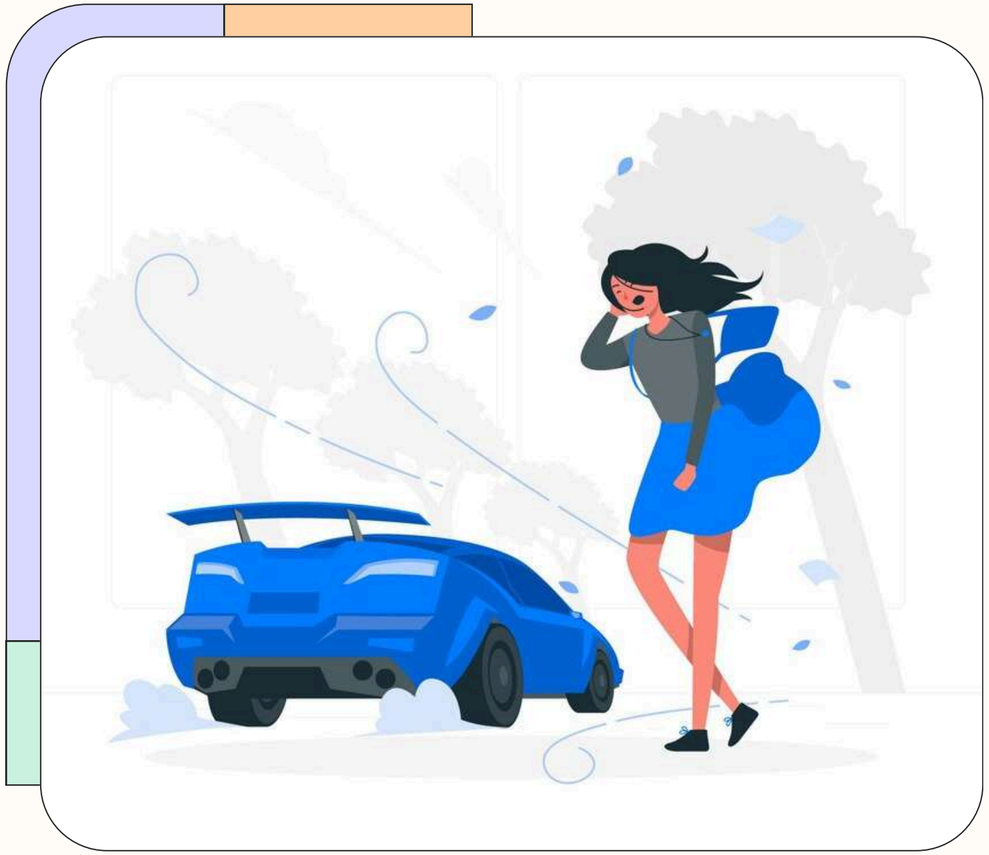
Connect QR Gate Pass System

A QR code is generated when an employee takes a gate pass. Scanning this pass allows for easy tracking of employee check-in and check-out times during office hours.

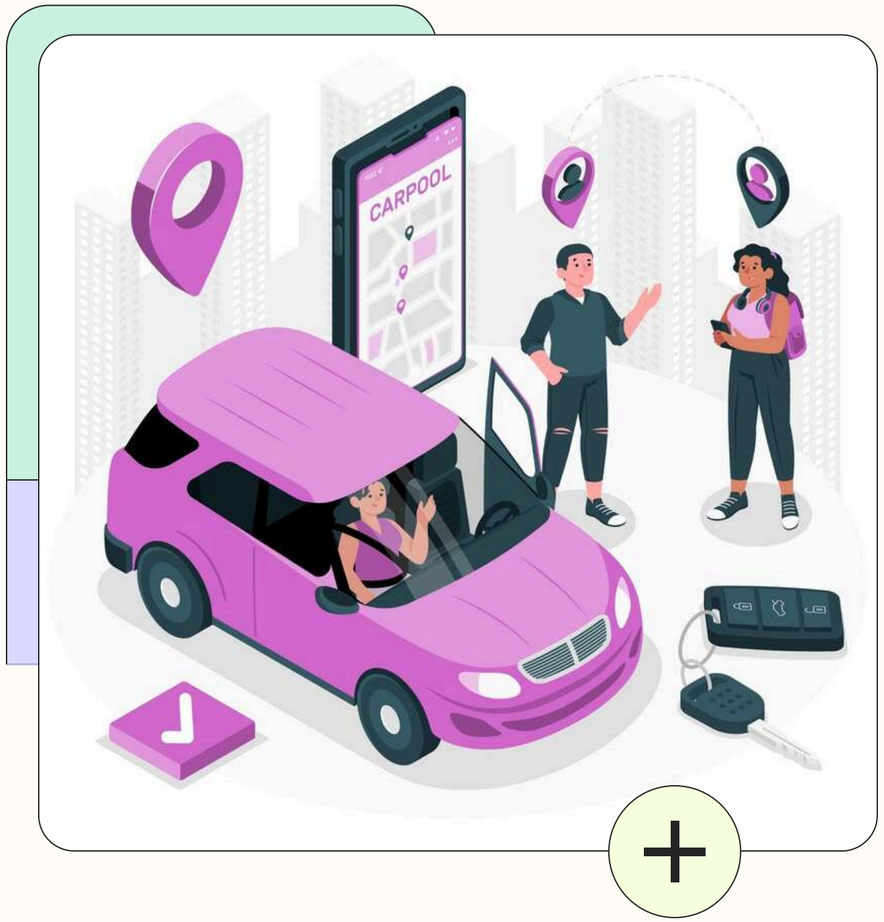


Leading Technological Product Options

Struggling to manage corporate vehicles?



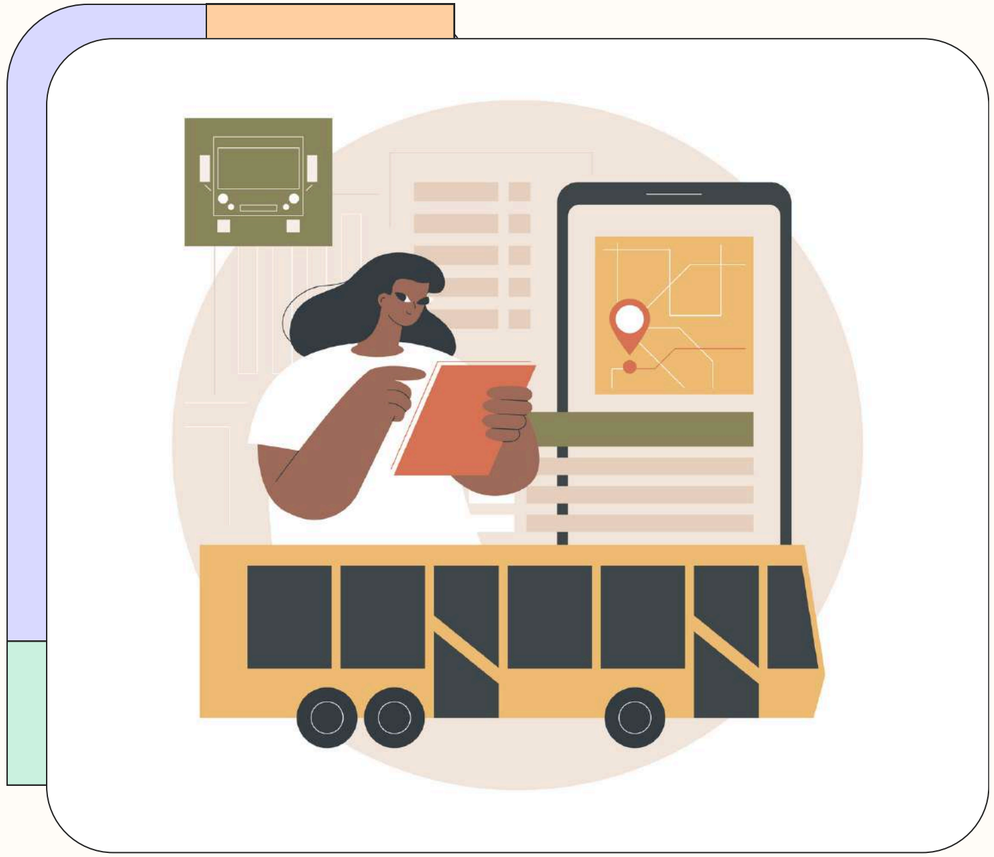
Offer a Long-Term Solution



Connect Vehicle Booking System

Drivers and guests will receive notifications via WhatsApp when a trip is assigned.

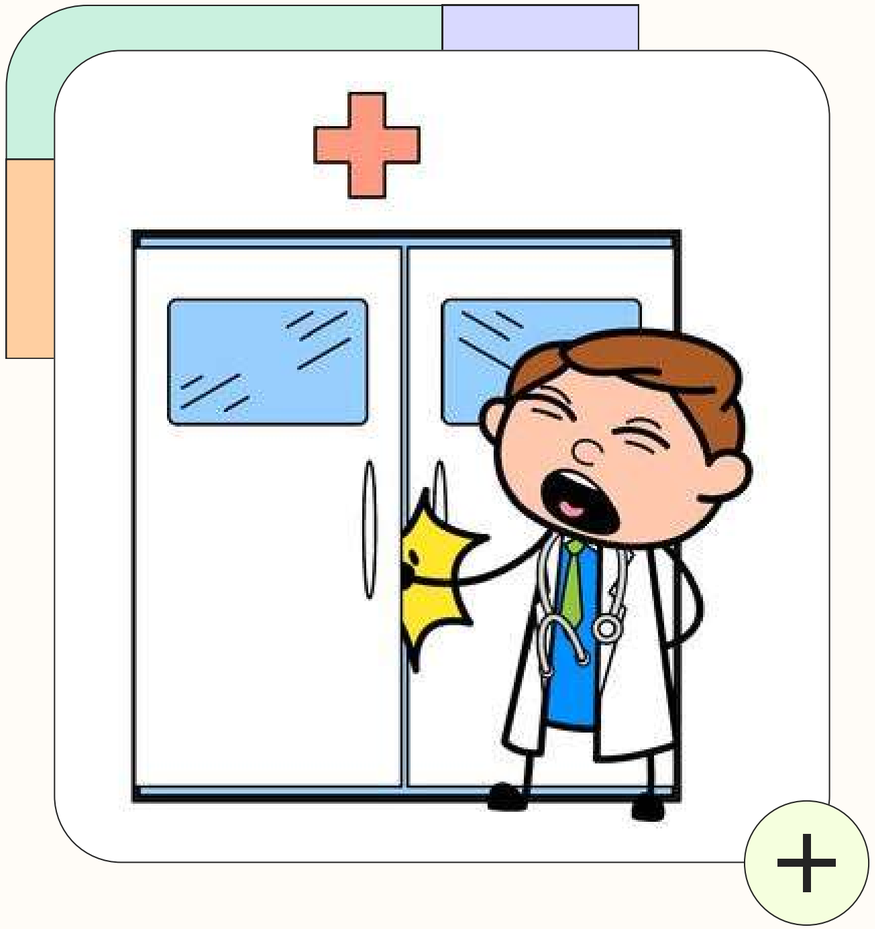
Having Trouble Tracking Your Bus Pass Validity?



Connect Bus Pass Validator

When a pass is issued, a QR code is generated for it. This QR code can be used when boarding buses or other institutional vehicles.

- **validator with buzzer system**



Clashes in Surgery Scheduling?

Connect

An Invitation to the Future
